Cocaine and Amphetamine-Regulated Transcript (CART) Protein Precursor Schematic (Human)

CART Preprohormone Schematic (Rat)

Prepro-CART Sequence (Rat)

Catalog #	G-003-63
Standard Size	200 µg
Sequence	pGlu - Glu - Asp - Ala - Glu - Leu - Gln - Pro - Arg - Ala - Leu - Asp - Ile - Tyr - Ser - Ala - Val - Asp - Asp - Ala - Ser - His - Glu - Lys - Glu - Leu - Pro - Arg - Arg - Gln - Leu - Arg - Ala - Pro - Gly - Ala - Val - Leu - Gln
Species	Human, Rat
Host	Rabbit
Reconstitution	For consistent and reproducible results, reconstitute with 50µl of distilled water and 150µl PBS for the equivalent of undiluted antibody, immediately before use. Do not refreeze any unused portions.
Storage Condition	For optimal results, use the antibody as soon as possible after reconstitution. Store in lyophilized form unless needed and reconstitute immediately before use. Once reconstituted, the antibody should be stable for a few days at -4°C. For storage up to a few months, prepare small aliquots after reconstitution and freeze at -20°C or -80°C. Repeated freeze thaw cycles should be strictly avoided.
Contents	This vial contains 200µg of rabbit IgG in 50µl PBS (137mM NaCI, 2.7mM KCI, 4.3mM Na_2HPO_4, 1.4mM KH_2PO_4, pH7.2) in the lyophilized form.
