 Research Use Only

For your comfortable lab routine

Your Lab Essentials

How is your lab life? Do you feel comfortable with your tools which you routinely use? We, Funakoshi, help your routine task to be easy, smooth and comfortable. Let us introduce when our items support your research with “My Lab Routine”!

My Lab Routine

Funakoshi items

Morning 	Lab clean	- Autoclave bags that decrease the smell P2
	See my cells	- Plastic Pasteur pipettes P2 - Stretchy covering film P2
	Start WB	- Prepare reagents without frustration P2 - Easy to use! Protein marker of SDS-PAGE P3
Afternoon 	Lunch break	
	Start IHC	- Serial section floating bath P3 - Let's share a photomicrograph with mentor P3
	Take a rest	
Evening 	Start PCR	- 10 minutes! Rapid and Easy DNA Extraction P3 - Keep samples cool P4
	Read paper	
	Lab finish	Other items - For FACS, Mini Cell Strainers P4 - Grasp something hot safely P4

P1

Lab clean

Autoclave bags with special effect

Easy packing!

Closure type: Zip tie

There are two special types.

One is **autoclave bag with deodorant component in the film** which decreases the smell of waste.

Another is **autoclave double bag** which is solidly bag with PP(Polypropylene) and PE(Polyethylene).

Cell culture

Plastic Pasteur pipettes

Low risk breaking

Plastic Pasteur pipettes are suitable for cell culture, vacuuming liquids, transfer small liquid quantities and other applications.

More information

Spatel / Tube / Weighing dish

Antistatic Consumables

(A) Antistatic spatel
(B) General spatel (polypropylene)
(C) General spatel (stainless)

Our **spatel, tube and weighing dish** contains high molecular type antistatic additive, then ideal for dispensing, weighing and storing of microparticles. Compared to low molecular type antistatic additive,

antistatic effect is kept semipermanently.
