

SURFACE DISINFECTION

Mycoplasma Off™

Mycoplasma Off™ is a ready-to-use surface disinfectant for any cell culture or microbiology lab, to maintain a clean work area very fast and easily.

Description

Mycoplasma Off™ is a simple solution for cleaning and disinfecting a variety of laboratory surfaces at the same time. There's no need for multiple products when you have the convenience of the easy-to-use

Mycoplasma Off™ product line. When using a simple sponge or paper towel, you may spread germs from one surface to another. Thus, germs are, or may be, propagated rather than wiped out.

Features

Broad Applicability

Mycoplasma Off™ shall be used on solid, non-porous surfaces in every room of the lab including safety cabinets, pipettes, cell storage boxes, lab equipment exteriors (like liquid nitrogen containers), incubator interior, and many more.

Outstanding Safe in Use

Mycoplasma Off™ is made with a bleach-free formula leaving a light, clean scent every time you wipe off a surface. Mycoplasma Off™ is alcohol-based, non-corrosive and non-carcinogenic. It shall be used as a routine contamination control program or for known or suspected mycoplasma challenges.

Broad Spectrum of Antimicrobial Activity

Mycoplasma Off™ kills mycoplasma within seconds. It is also effective against common bacteria such as *Staphylococcus aureus*, *Streptococcus faecalis*, *Escherichia coli*, *Proteus mirabilis*, *Pseudomonas aeruginosa*, *Candida albicans*, *Salmonella enterica* and TBC. It kills a wide range of viruses including those causing colds and flu, *HBV/HIV*, *Papova*, *Adeno*, *Polio* and *Vaccinia viridae*, according to the requirements of CEN TC 216.

Rapid

Mycoplasma Off™ affects mycoplasma immediately. Within seconds, mycoplasma are completely eradicated.

Convenient and Easy to Use

Mycoplasma Off™ is a ready-to-use solution available as a spray for larger surfaces or as wipes for spot cleaning and where spraying is not applicable, e.g. electronic devices. Refill packs enable an economic and ecological re-use of the spray bottle or the dispenser box. Simple to use: Spray and wipe off the surface clean with Mycoplasma Off™. Let it dry.

Recommended Use / Scope

Applicable in research and industry only. Not recommended for clinical applications. Use as directed. Pre-test surfaces for colour fastness. Mycoplasma Off™ must not be used on alcohol sensitive surfaces like acrylic and fiberglass.

Mycoplasma Off™

Kit Components

Ready-to-use formulation in a spray bottle or refill bottles

Shelf Life and Storage

Stable at room temperature for at least 12 months

Composition

32.5 % 1-propanol, 18 % ethanol, 0.1 % glutaraldehyde, 0.05 % Mynox®

Required Consumables

Paper towels

Required lab devices

None

Package Sizes

Cat. No. 15-1000 1000 ml spray bottle
Cat. No. 15-5000 5 x 1000 ml refill bottles

Mycoplasma Off™ Wipes

Kit Components

Single use wipes

Shelf Life and Storage

Stable at room temperature for at least 12 months

Composition

One wipe contains on average 0.54 g 1-propanol, 0.3 g ethanol, 1.6 mg glutaraldehyde, 0.08 mg Mynox®, purified water

Required Consumables

None

Required lab devices

None

Package Sizes

Cat. No. 15-1001 120 wipes in a dispenser
Cat. No. 15-5001 5 refill bags with 120 wipes, each
