**Description:** MOUSE ANTI PIG CD45:Alexa Fluor® 647

**Specificity:** CD45

**Other names:** LCA

**Format:** ALEXA FLUOR® 647

**Product Type:** Monoclonal Antibody

**Clone:** K252.1E4

**Isotype:** IgG1

**Quantity:** 100 TESTS/1ml

### Product Details

**Applications**
This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.abdserotec.com/protocols](http://www.abdserotec.com/protocols).

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**Target Species**
Pig

**Product Form**
Purified IgG conjugated to Alexa Fluor 647 - liquid

**Preparation**
Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant

**Buffer Solution**
Phosphate buffered saline

**Preservative Stabilisers**
0.09% Sodium Azide (NaN₃)
1% Bovine Serum Albumin

**Approx. Protein Concentrations**
IgG concentration 0.05mg/ml

**Immunogen**
Porcine Peripheral Blood lymphocytes.

**Fusion Partners**
Spleen cells from immunised BALB/c mice were fused with cells of the P3 - X63 - Ag.653 myeloma cell line.

**Specificity**
Mouse anti Pig CD45, clone K252.1E4 recognizes an epitope common to all porcine CD45 isoforms ([Schnitzlein et al. 1998](https://www.ncbi.nlm.nih.gov/pmc/articles/PMC169963/)). CD45 is also known as leukocyte common antigen (LCA).

Mouse anti Pig CD45, clone K252.1E4 immunoprecipitates three polypeptides of 226, 210 and 190kDa from preparations of porcine peripheral blood mononuclear cells and shows a broad
reactivity pattern with both lymphoid and myeloid cells \((\text{Zuckermann et al.} \; 1994).\)

**Flow Cytometry**

Use 10μl of the suggested working dilution to label \(10^6\) cells in 100μl.

### Further Reading

### Storage

Store at +4°C or at -20°C if preferred.

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. This product is photosensitive and should be protected from light.

Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

### Shelf Life

18 months from date of despatch.

### Health And Safety Information

### Regulatory

For research purposes only
