Description:
Polyclonal Antibody against Krox-20

Also Known As:
early growth response protein 2; EGR-2; Krox-20 homolog, Drosophila; zinc finger protein Krox-20; KROX-20, Drosophila, homolog (early growth response-2)

Intended Use:
**Research Use Only (RUO)**
This product is sold for laboratory research use only, not for human or in-vivo use.

Form:
Purified Antibody (Stored in PBS + 0.03% Thimerosal)

Specificity:
This antibody was raised against 8-95 amino acids of Krox20 (also known as Egr2) fused to GST. It was subsequently purified by protein-A chromatography.

Uses:
This antibody is effective in immunoblotting and immunohistochemistry (IHC) procedures in both whole mounts and in sections.

Suggested Working Dilution:
The optimal working dilution should be determined for each specific assay condition.
- Western blot: 1:500*
- IHC: 1:100

Notes:
*Predicted MW = 48 kDa

Storage:
Store at -20°C. Upon initial thawing, apportion into working aliquots and store at -20°C. Avoid repeated freeze-thaw cycles to prevent denaturing the antibody. For long-term storage, keep the antibody at -80°C.
