Beta Amyloid, Rodent Specific Polyclonal Antibody, Biotin Labeled
Catalog Number: SIG-39154
Available Size: 0.05 mg

Description:
Biotinylated Polyclonal Antibody against Rodent Aβ
(Formally Signet Catalog No.: 9154-005)

Also Known As:
amyloid beta A4 protein; preA4; protease nexin-II; peptidase nexin-II; beta-amyloid peptide; alzheimer disease amyloid protein; cerebral vascular amyloid peptide

Intended Use:
**Research Use Only (RUO)**
This product is sold for laboratory research use only, not for human or in-vivo use.

Form:
Biotin Labeled Antibody (in PBS + 50% glycerol; no preservatives or carrier proteins)

Host:
Rabbit

Species Reactivity:
Rodent

[Ab]:
50 ug/mL

Specificity:
Covance’s rabbit anti-rodent Amyloid beta is specific for the rodent Aβ. The rabbit anti-rodent Aβ reacts extremely well with all isoforms. The rabbit anti-rodent Aβ antibody has negligible cross-reactivity to human Aβ using immunohistochemistry.

Uses:
This antibody is effective in immunoblotting, immunohistochemistry (IHC) and ELISA.

Suggested Working Dilution:
The optimal working dilution should be determined for each specific assay condition.

Storage:
Store between 2-8°C.
