Description:
Rabbit Monoclonal Antibody Against Beta Amyloid 40

Also Known As:
amyloid beta A4 protein; preA4; protease nexin-II; peptidase nexin-II; beta-amyloid peptide; alzheimer disease amyloid protein; cerebral vascular amyloid peptide

Intended Use:
**Research Use Only (RUO)**
This product is sold for laboratory research use only, not for human or in-vivo use.

Form:
Purified

Clone:
29-6

Host:
Rabbit

IsoType:
IgG1

Species Reactivity:
Human, Rodent

[Ab]:
0.5 mg/mL

Specificity:
Clone 29-6 is reactive to the c-terminus of beta amyloid and specific for the isoform that ends at the 40th amino acid.

Uses:
This antibody is effective in ELISA.

Storage:
Store at -20°C or below. Upon initial thawing, apportion into working aliquots and store at -20°C or below. Avoid repeated freeze-thaw cycles to prevent denaturing the antibody. Do not store in frost-free freezers.

Warranty/Conditions:
Covance products may not be resold or modified for resale without prior written approval. All sales are subject to Covance Antibody Products Terms and Conditions of Sale.

Datasheet Revision Date:
11/6/2011
