

CD45RA (HI100) Antibody

Subcategory: Mouse Monoclonal Antibody, FITC-conjugated Antibody

Cat. No.: 251026

Unit: 2 ml

Description:

The CD45RA (HI100) antibody recognizes the 205/220-kDa isoform of leukocyte common antigen expressed on 40-50% peripheral CD4+ T cells, 50% peripheral CD8+ T cells and a portion of B cells and monocytes. Studies have shown that expression of different isoforms is characteristic of differentiated subset of hematopoietic cells (for instance CD45RA on naïve/ resting T cells and CD45RD on memory/ activated T cells; CD45RA on medullary thymocytes and CD45RD on cortical thymocytes). It is also reported that the pattern of 87% of B-ALL is CD45RA+/ CD45RO-, 70% of T-ALL is CD45RA-/ CD45RD+ and 78% of B-ALL is CD45RA+/ CD45RO+.

Isotype: mouse IgG2a

Applications: FC

Species Reactivity: H

Format: Each vial contains 2 ml IgG (100 tests) in PBS pH7.4, 0.1% BSA with 0.09% sodium azide. Antibody was purified by Protein-G affinity chromatography.

Alternate Names: Leukocyte common antigen; L-CA; T200; CD45 antigen; PTPRC; Protein tyrosine phosphatase receptor type C

Accession No.: P08575

Application Notes: FC with whole blood: 100 μ l blood + 20 μ l antibody; FC with cells: 10E6 cells + 20 μ l antibody. FC: 1:200-1:1,000

Storage: Store at 4°C. Product is guaranteed 6 months from the date of shipment.
