Goat Anti-Mouse IgG F(c) secondary antibody

(0.01% (w/v) sodium azide)

Catalog Number: PAB9349

Regulation Status: For research use only (RUO)

Product Description: Goat anti-mouse IgG recognizes mouse IgG F(c) fragment. This secondary antibody was purified using a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above.

Immunogen: Mouse IgG F(c) fragment

Host: Goat

Reactivity: Mouse

Applications: ELISA, IHC, WB

(See our web site product page for detailed applications information)

Protocols: See our web site at

<http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Specificity: No reaction was observed against mouse IgG F(ab')₂.

Form: Lyophilized

Conjugation: Unconjugated

Purification: This product is an IgG fraction antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above.

Concentration: 10.0 mg/mL

Conjugation Note:

Recommend Usage: The optimal working dilution should be determined by the end user.

Storage Buffer: Lyophilized from 5 mM sodium phosphate, 70 mM NaCl, 50% (v/v) glycerol, pH 7.4

Storage Instruction: Store at 4°C on dry atmosphere.

After reconstitution with 0.1 mL of deionized water, store at -20°C or lower.

Aliquot to avoid repeated freezing and thawing.
