Monoclonal Antibody to CD45 / LCA (CD45R) - Purified

L-CA, Leukocyte common antigen, PTPRC, Receptor-type tyrosine-protein phosphatase C, Alternate names:

T200

Catalog No.: AM01305PU-N

Quantity: 0.25 mg **Concentration:** 1.0 mg/ml

Background: CD45R was expressed by subpopulations of CD4+ and CD8+ T cells within the CD2+ T cell

population and by all B cells in peripheral blood and secondary lymphoid tissue, but is not

expressed by WCI + gamma/delta T cells, monocytes or granulocytes. This antibody immunoprecipitates molecules of 205kD and 220kD, and identifies a functional population

of naive CD4+ cells.

Uniprot ID: O9GMB4 **NCBI:** 9913

Mouse / IgG1 **Host / Isotype:**

Clone: CC76

Format: State: Liquid purified Ig

Purification: Affinity chromatography on Protein G

Buffer System: PBS, pH 7.4 containing 0.09% Sodium Azide

Applications: Immunoprecipitation.

Immunohistochemistry on frozen sections.

Flow Cytometry: 1/100 - 1/200; Use 10µl of the suggested working dilution to label 10e6

cells in 100µl.

Other applications not tested. Optimal dilutions are dependent on conditions and should

be determined by the user.

Specificity: This antibody recognises bovine CD45R.

Species: Bovine.

Other species not tested.

Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. Storage:

> Avoid repeated freezing and thawing. Shelf life: one year from despatch.
