

Monoclonal Antibody to CD45 / LCA (CD45RC) - FLMA

Alternate names:	L-CA, Leukocyte common antigen, PTPRC, Receptor-type tyrosine-protein phosphatase C, T200
Catalog No.:	AM08046FM-N
Quantity:	0.5 mg
Concentration:	0.1 mg/ml
Background:	CD45RC represents an exon C-dependent isoform of CD45 glycoprotein. It is expressed at high density on all B lymphocytes, at intermediate density on most CD8+ splenic T cells, and on two subpopulations of CD4+ splenic T cells with high and low density of expression. CD45RC is also present on a small subset of thymocytes. (Ref.1-4)
Uniprot ID:	P06800
NCBI:	10090
Host / Isotype:	Rat / IgM
Clone:	GL24
Format:	State: Liquid purified Ig fraction. Buffer System: PBS containing 0.09% Sodium Azide as preservative. Label: FLMA – Fluorescein-5-Maleimide
Applications:	Flow Cytometry: < / = 1 µg/10e6 cells. (Ref.1-3) Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody is specific to an an exon C-dependent epitope of CD45 glycoprotein. Species: Mouse. Other species not tested.
Storage:	Store the antibody undiluted at 2-8°C for one month or (in aliquots) at -20°C for longer. This product is photosensitive and should be protected from light. Avoid repeated freezing and thawing. Shelf life: one year from despatch.
General Readings:	1. Hathcock, K.S., Laslo, G., Dickler, H.B., Sharrow, S.O., Johnson, P. Trowbridge, I.S. and Hodes, R.J. 1992. <i>Immuol.</i> 148:19. 2. Bottomly, K., M. Luqman, L. Greenbaum, S.
