

Monoclonal Antibody to CD90 - Purified

Alternate names:	CDw90, THY1, Thy-1, Thy-1 membrane glycoprotein
Catalog No.:	CL037PS
Quantity:	25 µg
Concentration:	1.0 mg/ml
Background:	CD90 (Thy1) antigen is a GPI linked glycoprotein member of the Immunoglobulin superfamily. It is expressed on murine T cells, thymocytes, neural cells, cells of granulocytic lineage, early hematopoietic progenitors, fibroblasts, neurons and Kupffer's cells. Thy1 may play a role in cell to cell or cell to ligand interactions during synaptogenesis and other events in the brain. It is found in most mouse strains except AKR/J, A, Thy1.1 and B6.PL (74NS) expressing Thy1.1
Uniprot ID:	P01831
NCBI:	NP_033408.1
GeneID:	21838
Host / Isotype:	Mouse / IgM
Clone:	T11D7e
Immunogen:	Xenogeneic rat thymocytes. Spleen cells from immunised CBA mice were fused with cells of the mouse NS1 myeloma cell line.
Format:	State: Liquid purified IgM fraction Purification: Ammonium Sulphate Precipitation Buffer System: PBS Preservatives: 0.09% Sodium Azide
Applications:	Cytotoxic Assays. Flow Cytometry: Use 10 µl of 1/5 diluted antibody to label 10 ⁶ cells in 100 µl. This product is routinely tested in Flow Cytometry using Mouse thymocytes. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody recognises Mouse and Rat CD90 also known as Thy1.1. Thy1.1 is a monomorphic determinant in rat but polymorphic in mice. Clone <i>T11D7e</i> reacts with Thy1.1 mice e.g. AKR and FVB mice, but <u>not</u> Thy1.2 mice such as CBA and BALB/c. Clone <i>T11D7e</i> is useful for removal of T lymphocytes from cell populations by complement mediated cytotoxicity. Species: Mouse and Rat. Other species not tested.

For research and in vitro use only. Not for diagnostic or therapeutic work.

Material Safety Datasheets are available at www.acris-antibodies.com or on request.

Antibody Hotline - Technical Questions - Antibody Location Service
Free Call: 0800-2274746 (Germany only) - www.acris-antibodies.com

Storage: Store the antibody undiluted at 2-8°C.
DO NOT FREEZE!
Shelf life: one year from despatch.
