

Monoclonal Antibody to CD89 / FCAR - PE

Alternate names:	IgA Fc receptor, Immunoglobulin alpha Fc receptor
Catalog No.:	SM1198RT
Quantity:	25 Tests
Background:	CD89 cell surface antigen is a 50-70kD glycoprotein that is also known as the IgA receptor. CD89 is expressed by peripheral blood neutrophils and monocytes.
Uniprot ID:	P24071
NCBI:	NP_001991.1
GeneID:	2204
Host / Isotype:	Mouse / IgG1
Clone:	MIP8a
Immunogen:	Recombinant soluble Human Fc alpha R.
Format:	State: Lyophilized purified IgG fraction. Buffer System: PBS, pH 7.4 containing 0.09% Sodium Azide as preservative and 1% BSA as stabilizer. Label: PE – R. Phycoerythrin (RPE) Reconstitution: Restore with 1 ml distilled water
Applications:	Flow Cytometry: Use 10 µl of neat CD89 antibody to label 10e6 cells or 100 µl whole blood. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody recognizes the Human CD89 cell surface antigen. Species: Human. Other species not tested.
Storage:	Store the antibody undiluted (Prior to and following reconstitution) at 2-8°C. DO NOT FREEZE! This product is photosensitive and should be protected from light. Shelf life: one year from despatch.
