

Monoclonal Antibody to CD1a - PE

Alternate names:	T-cell surface antigen T6/Leu-6, T-cell surface glycoprotein CD1a, T6/Leu-6, hTa1, hTa1 thymocyte antigen
Catalog No.:	SM1858R
Quantity:	100 Tests
Background:	CD1a is a 49kD molecule expressed in association with beta 2 microglobulin. CD1a is expressed strongly by cortical thymocytes, and also by Langerhans cells and interdigitating cells.
Uniprot ID:	P06126
NCBI:	9606
Host / Isotype:	Mouse / IgG2a
Clone:	NA1/34-HLK
Immunogen:	Human thymocytes. Spleen cells from immunised BALB/c mice were fused with cells of the NS1/1 Ag4.1 mouse myeloma cell line.
Format:	State: Lyophilized purified IgG Purification: Ion exchange chromatography Buffer System: PBS, pH7.2 containing 0.09% Sodium Azide and 1.0% Bovine Serum Albumin Label: PE – R. Phycoerythrin (RPE) Reconstitution: Restore with 1 ml distilled water.
Applications:	Flow cytometry. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	This antibody recognises the CD1a cell surface glycoprotein. This product is routinely tested in flow cytometry on MOLT4 cells. Species: Human, Cynomolgus monkey, Dog. Other species not tested.
Storage:	Prior to and following reconstitution store the antibody at 2-8°C. DO NOT FREEZE! This product is photosensitive and should be protected from light. Shelf life: one year from despatch.
