

Monoclonal Antibody to CD45 (CD45R) - PE

| | |
|----------------------------|--|
| Alternate names: | CD45R, L-CA, Leukocyte common antigen, PTPRC, T200 |
| Catalog No.: | SM2030R |
| Quantity: | 100 Tests |
| Concentration: | 0.1 mg/ml |
| Background: | CD45 is a family of single chain transmembrane glycoproteins consisting of at least four isoforms (220, 205, 190, 180 kDa) which share a common large intracellular domain. Their extracellular domains are heavily glycosylated. The different isoforms are produced by alternative messenger RNA splicing of three exons of a single gene on chromosome 1. CD45 is expressed on cells of the human hematopoietic lineage (including hematopoietic stem cells) with the exception of mature red cells. It is not detected on differentiated cells of other tissues. It is likely that CD45 plays an important role in signal transduction, inhibition or upregulation of various immunological functions. Antibodies recognising a common epitope on all of the isoforms are termed CD45 whilst those recognising only individual isoforms are termed CD45RA or CD45RO etc. |
| Host / Isotype: | Mouse / IgG1 |
| Clone: | 20.96 |
| Immunogen: | Ovine thymocytes. Spleen cells from immunised BALB/c mice were fused with cells of the mouse NS-1 myeloma cell line. |
| Format: | State: Lyophilized purified IgG Purification: Affinity chromatography on Protein G Buffer System: PBS, pH 7.4 containing 0.09% Sodium Azide and 1% Bovine Serum Albumin Label: PE – R. Phycoerythrin (RPE) |
| Applications: | Flow Cytometry. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user. |
| Specificity: | This antibody recognises the CD45R cell surface antigen. |
| Storage: | Prior to and following reconstitution store the antibody at 2-8°C. DO NOT FREEZE! This product is photosensitive and should be protected from light. Shelf life: one year from despatch. |
