

Monoclonal Antibody to CD10 / Neprilysin - FITC

Alternate names:	Atriopeptidase, CALLA, Common acute lymphocytic leukemia antigen, EPN, Enkephalinase, MME, NEP, Neutral endopeptidase, Neutral endopeptidase 24.11
Catalog No.:	SM3006F
Quantity:	100 Tests
Background:	CD10 (neutral endopeptidase NEP, common acute lymphocytic leukemia antigen CALLA, membrane metallo-endopeptidase MME, enkephalinase) is a 100-kDa cell surface zinc metalloprotease cleaving peptide bonds on the N-terminus of hydrophobic amino acids and inactivating multiple physiologically active peptides. CD10 is expressed on various normal cell types, including lymphoid precursor cells, germinal center B lymphocytes, and some epithelial cells, and its expression level serves as a marker for diagnostics of many carcinomas. CD10 is also a differentiation antigen for early B-lymphoid progenitors in the B-cell differentiation pathway and has a key role in regulation of growth, differentiation and signal transduction of many cellular systems.
Uniprot ID:	P08473
NCBI:	NP_000893.2
GeneID:	4311
Host / Isotype:	Mouse / IgG1
Clone:	MEM-78
Immunogen:	NALM-6 human pre-B cell line
Format:	State: Liquid purified Ig fraction Buffer System: PBS containing 15 mM Sodium Azide as preservative and 0.2% (w/v) high-grade protease free BSA as a stabilizing agent. Label: FITC – Conjugated with Fluorescein isothiocyanate under optimum conditions. The reagent is free of unconjugated and adjusted for direct use
Applications:	Flow Cytometry: Use 20 µl to label 10e6 cells or 100 µg of whole blood. The content of a vial (2 ml) is sufficient for 100 tests. Other applications not tested. Optimal dilutions are dependent on conditions and should be determined by the user.
Specificity:	The antibody reacts with CD10 antigen (CALLA - Common acute lymphatic leukemia antigen), a 100 kDa type II integral membrane protein. Species: Human. Other species not tested.
Storage:	Store the antibody at 2-8°C. DO NOT FREEZE! This product is photosensitive and should be protected from light. Shelf life: one year from despatch.

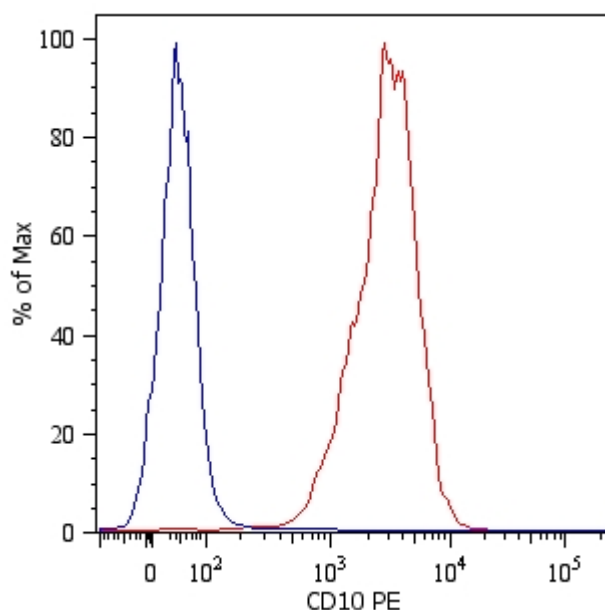

For research and in vitro use only. Not for diagnostic or therapeutic work.

Material Safety Datasheets are available at www.acris-antibodies.com or on request.
