

Rabbit antibody to ATG16 L1: whole serum

Catalogue No.:	R-158-100
Description:	ATG16 L1 plays an essential role in autophagy. It is a homooligomer and interacts with ATG5. Part of either the minor and major complexes respectively composed of 4 sets of ATG12-ATG5 and ATG16L1 (400 kDa) or 8 sets of ATG12-ATG5 and ATG16L1 (800 kDa). ATG16 L1 localises to the cytoplasm, in particular to preautophagosomal structure (PAS) where it is involved in the membrane targeting of ATG5. There are 5 named isoforms produced by alternative splicing. Genetic variation within ATG16 L1 are associated with susceptibility to inflammatory bowel disease type 1.
Batch No.:	See product label
Unit size:	100 µl
Antigen:	N-terminal of human ATG16-L1 protein conjugated to Blue Carrier Protein has been used as the immunogen.
Other Names:	Autophagy-related protein 16-1; APG16-like 1; ATG16L1
Accession:	A16L1_HUMAN
Produced in:	Rabbit
Purity:	Whole serum
Applications:	IHC, immunofluorescence, WB. A dilution of 1:100 to 1:3000 dilution is recommended for these applications. Biosensis recommends optimal dilutions/concentrations should be determined by the end user.
Specificity:	IHC, WB and ELISA confirmed the specificity for ATG16 L1.
Cross-reactivity:	Human, rat. Other species not yet tested.
Form:	Lyophilised
Reconstitution:	Reconstitute in 100 µl of sterile water. Centrifuge to remove any insoluble material.
Storage:	After reconstitution keep aliquots at -20°C for a higher stability, and at 4°C with an appropriate antibacterial agent. Avoid repetitive freeze/thaw cycles.
Expiry Date:	Six months after purchase

Rabbit antibody to ATG16 L1: whole serum

Atg16 L1 detected in cytospun HL60 cells by fluorescence confocal microscopy using antibody R-158-100. HL60 cells were fixed with acetone 90 seconds; primary antibody was diluted 1:100 and incubated for 1 hour, 3 x washes and secondary (Goat anti Rb 1:100 alexa 546 conjugate) for 30 minutes. Cells stained for Atg16 L1 appear in red. The cells were then counter-stained with Hoechst Dyeblue colour.
