EB08284 - Goat Anti-PITX3 Antibody

Size: 100µg specific antibody in 200µl

Cite

Target Protein

Principal Names: PITX3 antibody, paired-like homeodomain 3 antibody, MGC12766 antibody, PTX3 antibody, homeobox protein PITX3 antibody Official Symbol: PITX3 Accession Number(s): NP_005020.1 Human GeneID(s): <u>5309</u>

Important Comments: This antibody is not excpected to cross-react with PITX1 and PITX2.

Immunogen

Peptide with sequence PEHGCKGQEHSD, from the internal region of the protein sequence according to NP_005020.1.

Please note the peptide is available for sale.

Purification and Storage

Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide. Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin. Aliquot and store at -20°C. Minimize freezing and thawing.

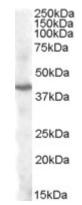

Applications Tested

Peptide ELISA: antibody detection limit dilution 1:1000.

Western blot: Approx 40kDa band observed in Human Brain (Cerebellum and Cerebral Cortex) lysates (calculated MW of 31.8kDa according to NP_005020.1). The observed molecular weight corresponds to earlier findings in literature with different antibodies (Coulon et al, J Biol Chem. 2007 Nov 9;282(45):33192-200.; PMID: 17848564). Recommended concentration: 0.3-1µg/ml.

Species Reactivity

Tested: Human Expected from sequence similarity: Human

EB08284 (1µg/ml) staining of Human Cerebellum lysate (35µg protein in RIPA buffer). Primary incubation was 1 hour. Detected by chemiluminescence.
