

Netrin 1. Rabbit Polyclonal Antibody Netrin 1, NTN1

BACKGROUND

Netrins control guidance of CNS commissural axons and peripheral motor axons. Its association with either DCC or some UNC5 receptors will lead to axon attraction or repulsion, respectively. It also serve as a survival factor via its association with its receptors which prevent the initiation of apoptosis. Involved in colorectal tumorigenesis by regulating apoptosis.

Netrin 1's main receptor is DCC (deleted in colorectal cancer- a putative tumor suppressor gene whose expression is lost in numerous cancers). DCC belongs to the so-called family of dependence receptors. These receptors induce apoptosis when their ligand is absent, thus conferring a state of cellular dependence on Netrin 1 availability. The DCC/netrin-1 duo regulates neuron survival during nervous system development. The mechanism(s) by which Netrin 1/ DCC triggers cell death are still unknown. The localization of DCC to lipid rafts appears to be a prerequisite for its proapoptotic activity.

ORDERING INFORMATION

CATALOG NUMBER

X1873P

SIZE

 $100 \mu g$

FORM

Unconjugated

HOST/CLONE

Rabbit

FORMULATION

Provided as solution in phosphate buffered saline with 0.08% sodium azide

CONCENTRATION

See vial for concentration

ISOTYPE

IgG

APPLICATIONS

Western Blot

SPECIES REACTIVITY

Human, Mouse, Rat, Cow, Macaque,

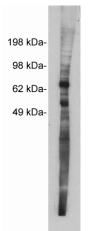

ACCESSION NUMBER

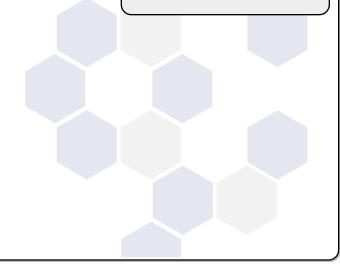

NP_004813 Human

IMMUNOGEN

Synthetic peptide derived from the human Netrin 1 protein

Western blot using Exalpha's X1873P, rabbit polyclonal at 5 ug/ml on MDCKII cell extract (10 ug/lane). Blots were developed with goat antirabbit Ig (1:100k) and Pierce's Supersignal West Femto system.

Positive Control/Tissue Expression

Antibody tested on MDCKII cell lysates.

COMMENTS

Antibody can be used for Western blotting (0.5-2 μ g/ml). Optimal concentration should be evaluated by serial dilutions.

PURIFICATION

Ammonium Sulfate Precipitation

SHIP CONDITIONS

Ship at ambient temperature, freeze upon arrival

STORAGE CUSTOMER

Product should be stored at -20°C. Aliquot to avoid freeze/thaw cycles

STABILITY

Products are stable for one year from purchase when stored properly
