## **Product Specifications**

| Product:            | Goat anti-Rabbit IgG Fc - Affinity Pure   |
|---------------------|---|
| Description:        | Goat anti-Rabbit IgG Fc - Affinity Pure, FITC Conjugate, min x/bovine horse or    |
|                     | human serum proteins  |
| Part Number:        | GtxRb-004-EFITC   |
| Concentration:      | 1.50 mg/ml (E 1% at 280 nm = 13.0)  |
| Amount:             | 2.0 mg  |
| Conjugate:          | Fluorescein-5-isothiocyanate (FITC) Amax = 494 nm; Emax = 518 nm                  |
| Form:               | Clear, fluorescent yellow liquid  |
| Purification:       | Affinity purified using solid phase Rabbit IgG                                    |
| Purity:             | Affinity purified antibody is > 95% based on SDS-PAGE                             |
| Host:               | Goat  |
| Immunogen:          | Purified Rabbit IgG Fc  |
| Buffer:             | 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1 % (w/v) BSA,            |
|                     | Protease/IgG free   |
| Preservative:       | 0.05% (w/v) Sodium Azide  |
| Storage:            | 2-8 °C  |
| Shelf Life:         | 1 year from date of receipt. Prepare working dilution prior to use and then       |
|                     | discard.  |
| Specificity:        | Based on IEP, this antibody reacts with:  |
|                     |   |
|                     | <ul> <li>heavy (γ) chains on rabbit IgG</li> </ul>                                |
| Cross Reactivity:   | Based on IEP, no reactivity is observed to:                                       |
|                     |   |
|                     | <ul> <li>non-immunoglobulin rabbit serum proteins</li> </ul>                      |
|                     | <ul> <li>light chains on all rabbit immunoglobulins</li> </ul>                    |
|                     | • serum proteins from bovine, horse or human                                      |
| Country of Origin:  | Goat serum was obtained from healthy animals of US origin and under the care of   |
| country of origin.  | a registered veterinarian.  |
| Applications:       | This conjugate is suitable for immunomicroscopy and flow cytometry. The optimal   |
| Applications.       | working dilution should be determined by the investigator. Suggested starting     |
|                     | dilution(s):  |
|                     |   |
|                     | • 1:20 - 1:2,000 for most applications  |
| Disclaimer:         | For in vitro Laboratory Use Only. Not intended for diagnostic or therapeutic use. |
|                     | Not for human or animal consumption. Suggested applications of our products are   |
