

VTN / Vitronectin Sheep anti-Human Polyclonal Antibody - LS-B10245 - LSBio	
CatalogID:	LS-B10245
Validation:	This antibody replaces catalog number LS-C40243. It has been validated for use in the following assays: IHC-P.
Target:	vitronectin (VTN)
Synonyms:	VTN Antibody, Epibolin Antibody, Serum-spreading factor Antibody, VNT Antibody, S-protein Antibody, Somatomedin B Antibody, V75 Antibody, VN Antibody, Complement S-protein Antibody, Serum spreading factor Antibody, Vitronectin Antibody
Family / Subfamily:	Matrix Protein / not assigned-Other
Host	VTN antibody was produced in Sheep
Clonality:	Polyclonal
Isotype:	IgG
Immunogen Species:	VTN / Vitronectin antibody was raised against Human
Antigen Type:	Purified protein
Immunogen:	VTN / Vitronectin antibody was raised against purified vitronectin (Vn) from human plasma. This protein is also known as S-Protein.
Specificity:	Specific for vitronectin as demonstrated by immunoelectrophoresis. A single precipitin arc is observed with normal plasma, of identical mobility to that obtained with purified vitronectin.
Reactivity:	Human
Purification:	Ammonium sulfate precipitation
Presentation:	0.01 M HEPES, pH 7.4, 0.15 M sodium chloride, 50% glycerol.
Recommended Storage:	Long term: -20°C; Short term: +4°C. Avoid repeat freeze-thaw cycles.
Uses:	IHC - Paraffin (5 µg/ml), ELISA, Immunoelectrophoresis (Optimal dilution to be determined by the researcher)
Size:	200 µg
Concentration:	10 mg/ml

Immunohistochemistry Image:

Human Lung: Formalin-Fixed, Paraffin-Embedded (FFPE)

Immunohistochemistry Image:

Human Liver: Formalin-Fixed, Paraffin-Embedded (FFPE)

Requested From:

Japan
