

Metallothionein Mouse anti-Rabbit Monoclonal (UC1MT) Antibody - LS-B3698 - LSBio

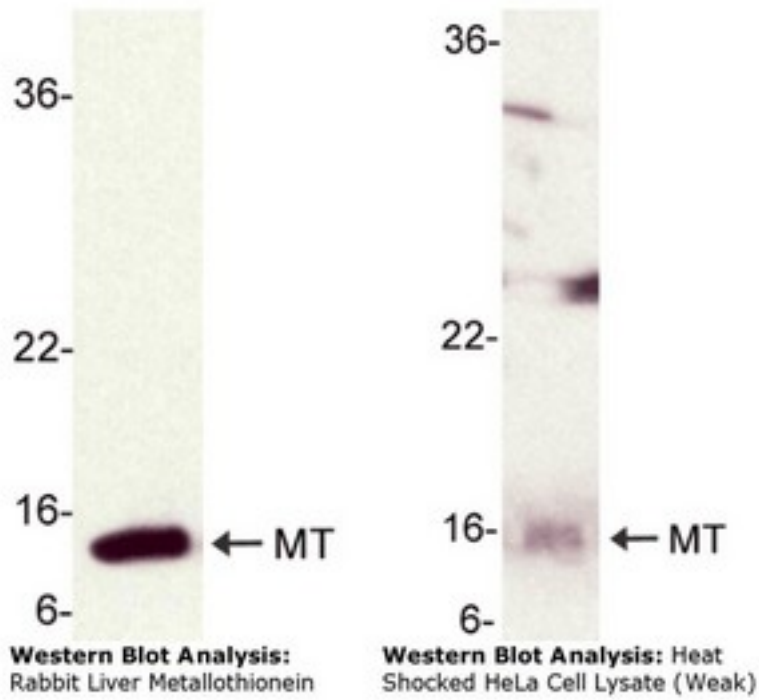

CatalogID:	LS-B3698
Validation:	This antibody replaces catalog number LS-C63229. It has been validated for use in the following assays: IHC-P.
Target:	Metallothionein
Host	Metallothionein antibody was produced in Mouse
Clonality:	Monoclonal
Isotype:	IgG1
Clone Name:	UC1MT
Immunogen Species:	Metallothionein antibody was raised against Rabbit
Immunogen:	Metallothionein antibody was raised against cross-linked rabbit liver metallothionein-I and metallothionein-II.
Reactivity:	Rabbit, Human, Rat
Purification:	Protein G purified
Presentation:	PBS, pH 7.2, 0.09% azide, 50% glycerol
Recommended Storage:	Store at -20°C.
Usage Summary:	Immunohistochemistry: LS-B3698 was validated for use in immunohistochemistry on a panel of 21 formalin-fixed, paraffin-embedded (FFPE) human tissues after heat induced antigen retrieval in pH 6.0 citrate buffer. After incubation with the primary antibody, slides were incubated with biotinylated secondary antibody, followed by alkaline phosphatase-streptavidin and chromogen. The stained slides were evaluated by a pathologist to confirm staining specificity. The optimal working concentration for LS-B3698 was determined to be 10 ug/ml
Uses:	IHC - Paraffin (10 µg/ml), Western blot (Optimal dilution to be determined by the researcher)
Size:	50 µg
Concentration:	1 mg/ml

Immunohistochemistry Image:

Anti-Metallothionein antibody IHC of human uterus. Immunohistochemistry of formalin-fixed, paraffin-embedded tissue after heat-induced antigen retrieval. Antibody LS-B3698 concentration 10 ug/ml.
