

NFYB Rabbit anti-Human Polyclonal (N-Terminus) Antibody - LS-B718 - LSBio

CatalogID:	LS-B718
Validation:	This antibody replaces catalog number LS-C18767. It has been validated for use in the following assays: IHC.
Target:	nuclear transcription factor Y, beta (NFYB)
Synonyms:	NFYB Antibody, CBF-A Antibody, CBF-B Antibody, HAP3 Antibody, NF-YB Antibody
Host	NFYB antibody was produced in Rabbit
Clonality:	Polyclonal
Immunogen Species:	NFYB antibody was raised against Human
Specificity:	NF-Y (B subunit specific) peptide corresponding to a region near the N-terminus of the human protein conjugated to Keyhole Limpet Hemocyanin (KLH).
Epitope:	N-Terminus
Reactivity:	Human
Purification:	Delipidated and defibrinated
Presentation:	0.01% sodium azide.
Recommended Storage:	+4°C or -20°C, Avoid repeated freezing and thawing.
Usage Summary:	Immunohistochemistry: LS-B718 was validated for use in immunohistochemistry on a panel of 21 formalin-fixed, paraffin-embedded (FFPE) human tissues after heat induced antigen retrieval in pH 6.0 citrate buffer. After incubation with the primary antibody, slides were incubated with biotinylated secondary antibody, followed by alkaline phosphatase-streptavidin and chromogen. The stained slides were evaluated by a pathologist to confirm staining specificity. The optimal working concentration for LS-B718 was determined to be 1:500.
Uses:	IHC - Paraffin (1:500), Western blot, Immunoprecipitation, ELISA (Optimal dilution to be determined by the researcher)
Size:	50 µl
Concentration:	90 mg/ml

Immunohistochemistry Image:

Anti-NFYB antibody IHC of human thymus. Immunohistochemistry of formalin-fixed, paraffin-embedded tissue after heat-induced antigen retrieval. Antibody LS-B718 dilution 1:500.
