

ITGAX / CD11c Mouse anti-Human Monoclonal (FITC) (3.9) Antibody - LS-C107119 - LSBio	
CatalogID:	LS-C107119
Target:	integrin, alpha X (complement component 3 receptor 4 subunit) (ITGAX)
Synonyms:	ITGAX Antibody, CD11c antigen Antibody, Integrin alpha-X Antibody, Leu M5, alpha subunit Antibody, p150 95 integrin alpha chain Antibody, SLEB6 Antibody, CD11C Antibody, Leu M5 Antibody
Family / Subfamily:	Integrin / not assigned-Integrin
Host	ITGAX antibody was produced in Mouse
Clonality:	Monoclonal
Isotype:	IgG1,k
Clone Name:	3.9
Conjugations:	Fluorescein (FITC)
Immunogen Species:	ITGAX / CD11c antibody was raised against Human
Immunogen:	ITGAX / CD11c antibody was raised against human ITGAX
Reactivity:	Human
Purification:	Affinity purified
Presentation:	Aqueous buffer, 0.09% sodium azide, contains stabilizer if necessary
Recommended Storage:	Store at +4°C. Do not freeze. Product is photosensitive and should be protected from light.
Usage Summary:	The 3.9 antibody has been pre-titrated and tested by flow cytometric analysis of human peripheral blood leukocytes. This can be used at 20 ul (1ug) per test. A test is defined as the amount (ug) of antibody that will stain a cell sample in a final volume of 100 ul. Cell number should be determined empirically but can range from 10 ⁵ to 10 ⁸ cells/test.
Uses:	Flow Cytometry (Optimal dilution to be determined by the researcher)
Size:	25 tst or 100 tst

Flow Cytometry Image:

Staining of normal human peripheral blood cells with FITC Mouse IgG1, K Isotype Control (open histogram) or FITC anti-human CD11c (filled histogram). Cells in the monocyte gate were used for analysis.
