

ICOS Mouse anti-Human Monoclonal (PE, Cy7) (ISA-3) Antibody - LS-C107236 - LSBio

CatalogID:	LS-C107236
Target:	inducible T-cell co-stimulator (ICOS)
Synonyms:	ICOS Antibody, AILIM Antibody, CD278 Antibody, CVID1 Antibody, Inducible costimulator Antibody, Inducible T-cell co-stimulator Antibody, CD278 antigen Antibody, Inducible T-cell costimulator Antibody
Host	ICOS antibody was produced in Mouse
Clonality:	Monoclonal
Isotype:	IgG1,k
Clone Name:	ISA-3
Conjugations:	Phycoerythrin (PE), Cy7
Immunogen Species:	ICOS antibody was raised against Human
Immunogen:	ICOS antibody was raised against human ICOS
Reactivity:	Human
Purification:	Affinity purified
Presentation:	Aqueous buffer, 0.09% sodium azide, contains stabilizer if necessary
Recommended Storage:	Store at +4°C. Do not freeze. Product is photosensitive and should be protected from light.
Usage Summary:	This ISA-3 antibody has been pre-titrated and tested by flow cytometric analysis of stimulated normal human peripheral blood cells. This can be used at 5 ul (0.125 ug)/per test. A test is defined as the amount (ug)/test of antibody that will stain a cell sample in a final volume of 100 ul. Cell number should be determined empirically but can range from 10 ⁵ to 10 ⁸ cells/test.
Uses:	Flow Cytometry (Optimal dilution to be determined by the researcher)
Size:	25 tst or 100 tst

Flow Cytometry Image:

Staining of normal human peripheral blood cells either unstimulated (blue histogram) or stimulated for 3 days with anti-human CD3 and anti-human CD28 (purple histogram), with PE-Cy7 anti-human ICOS (ISA-3). Total viable cells were used for analysis.
