

Synonyms: DEXI Antibody, Dexi homolog (mouse) Antibody, Dexamethasone-induced pro Antibody, MYLE Antibody, Protein MYLE Antibody Host DEXI antibody was produced in Rabbit Clonality: Polyclonal Isotype: IgG Conjugations: Fluorescein (FITC) Immunogen Species: DEXI antibody was raised against Human Antigen Type: Synthetic peptide Immunogen: DEXI antibody was raised against kLH-conjugated synthetic peptide (aa55-82) from the C-terminus of human DEXI. Specificity: Epitope: aa55-82 Reactivity: Human, Mouse Purification: Protein A purified Presentation: PBS, pH 7.2, 0.09% sodium azide. Recommended Storage: May be stored at 4°C for short-term only. Aliquot to avoid repeated freezing ant thawing. Store at -20°C. Aliquots are stable for 6 months. Usage Summary: The applications listed above are for the unconjugated form of this antibody. T conjugated antibody has not been tested. Uses: Western blot, ELISA (Optimal dilution to be determined by the researcher) Size: 200 µl Requested From: Japan	CatalogID:	LS-C208792
Antibody, MYLE Antibody, Protein MYLE Antibody Host DEXI antibody was produced in Rabbit Clonality: Polyclonal Isotype: IgG Conjugations: Fluorescein (FITC) Immunogen Species: DEXI antibody was raised against Human Antigen Type: Synthetic peptide Immunogen: DEXI antibody was raised against kLH-conjugated synthetic peptide (aa55-82) from the C-terminus of human DEXI. Specificity: Human DEXI Epitope: aa55-82 Reactivity: Human, Mouse Purification: Protein A purified Presentation: PBS, pH 7.2, 0.09% sodium azide. Recommended Storage: May be stored at 4°C for short-term only. Aliquot to avoid repeated freezing an thawing. Store at -20°C. Aliquots are stable for 6 months. Usage Summary: The applications listed above are for the unconjugated form of this antibody. T conjugated antibody has not been tested. Uses: Western blot, ELISA (Optimal dilution to be determined by the researcher) Size: 200 µl Requested From: Japan Laboratory Reagent For In Vitro Research Use Only	Target:	Dexi homolog (mouse)
Clonality: Polyclonal Isotype: IgG Conjugations: Fluorescein (FITC) Immunogen Species: DEXI antibody was raised against Human Antigen Type: Synthetic peptide Immunogen: DEXI antibody was raised against kLH-conjugated synthetic peptide (aa55-82) from the C-terminus of human DEXI. Specificity: Human DEXI Epitope: aa55-82 Reactivity: Human, Mouse Purification: Protein A purified Presentation: PBS, pH 7.2, 0.09% sodium azide. Recommended Storage: May be stored at 4°C for short-term only. Aliquot to avoid repeated freezing an thawing. Store at -20°C. Aliquots are stable for 6 months. Usage Summary: The applications listed above are for the unconjugated form of this antibody. T conjugated antibody has not been tested. Uses: Western blot, ELISA (Optimal dilution to be determined by the researcher) Size: 200 µl Requested From: Japan Laboratory Reagent For In Vitro Research Use Only	Synonyms:	DEXI Antibody, Dexi homolog (mouse) Antibody, Dexamethasone-induced proteir Antibody, MYLE Antibody, Protein MYLE Antibody
Isotype: IgG Conjugations: Fluorescein (FITC) Immunogen Species: DEXI antibody was raised against Human Antigen Type: Synthetic peptide Immunogen: DEXI antibody was raised against kLH-conjugated synthetic peptide (aa55-82) from the C-terminus of human DEXI. Specificity: Human DEXI Epitope: aa55-82 Reactivity: Human, Mouse Purification: Protein A purified Presentation: PBS, pH 7.2, 0.09% sodium azide. Recommended Storage: May be stored at 4°C for short-term only. Aliquot to avoid repeated freezing an thawing. Store at -20°C. Aliquots are stable for 6 months. Usage Summary: The applications listed above are for the unconjugated form of this antibody. T conjugated antibody has not been tested. Uses: Western blot, ELISA (Optimal dilution to be determined by the researcher) Size: 200 µl Requested From: Japan Laboratory Reagent For In Vitro Research Use Only	Host	DEXI antibody was produced in Rabbit
Conjugations: Fluorescein (FITC) Immunogen Species: DEXI antibody was raised against Human Antigen Type: Synthetic peptide Immunogen: DEXI antibody was raised against kLH-conjugated synthetic peptide (aa55-82) from the C-terminus of human DEXI. Specificity: Human DEXI Epitope: aa55-82 Reactivity: Human, Mouse Purification: Protein A purified Presentation: PBS, pH 7.2, 0.09% sodium azide. Recommended Storage: May be stored at 4°C for short-term only. Aliquot to avoid repeated freezing an thawing. Store at -20°C. Aliquots are stable for 6 months. Usage Summary: The applications listed above are for the unconjugated form of this antibody. T conjugated antibody has not been tested. Uses: Western blot, ELISA (Optimal dilution to be determined by the researcher) Size: 200 µl Requested From: Japan Laboratory Reagent For In Vitro Research Use Only	Clonality:	Polyclonal
Immunogen Species: DEXI antibody was raised against Human Antigen Type: Synthetic peptide Immunogen: DEXI antibody was raised against kLH-conjugated synthetic peptide (aa55-82) from the C-terminus of human DEXI. Specificity: Human DEXI Epitope: aa55-82 Reactivity: Human, Mouse Purification: Protein A purified Presentation: PBS, pH 7.2, 0.09% sodium azide. Recommended Storage: May be stored at 4°C for short-term only. Aliquot to avoid repeated freezing an thawing. Store at -20°C. Aliquots are stable for 6 months. Usage Summary: The applications listed above are for the unconjugated form of this antibody. T conjugated antibody has not been tested. Uses: Western blot, ELISA (Optimal dilution to be determined by the researcher) Size: 200 µl Requested From: Japan Laboratory Reagent For In Vitro Research Use Only	Isotype:	IgG
Antigen Type: Synthetic peptide Immunogen: DEXI antibody was raised against kLH-conjugated synthetic peptide (aa55-82) from the C-terminus of human DEXI. Specificity: Human DEXI Epitope: aa55-82 Reactivity: Human, Mouse Purification: Protein A purified Presentation: PBS, pH 7.2, 0.09% sodium azide.
