

Antibody Antibody   Host HIRA antibody was produced in Rabbit   Clonality: Polyclonal   Isotype: IgG   Conjugations: Fluorescein (FITC)   Immunogen Species: HIRA antibody was raised against Human   Antigen Type: Synthetic peptide   Immunogen: HIRA antibody was raised against kLH-conjugated synthetic peptide (aa31-6 from the N-terminal region of human HIRA.   Specificity: Human HIRA.   Epitope: aa31-61   Reactivity: Human   Purification: Affinity purified   Presentation: PBS, pH 7.2, 0.09% sodium azide.   Recommended Storage: May be stored at 4°C for short-term only. Aliquot to avoid repeated freezing a thawing. Store at -20°C. Aliquots are stable for 6 months.   Usage Summary: The applications listed above are for the unconjugated form of this antibody. conjugated antibody has not been tested.   Uses: Western blot, ELISA (Optimal dilution to be determined by the researcher)   Size: 200 µl   Requested From: Japan   Laboratory Reagent For In Vitro Research Use Only	talogID:	LS-C259757
