

Synonyms:BMF OP-Family / Subfamily:TGFHostBMFClonality:PolyIsotype:IgGConjugations:PhyImmunogen Species:BMFAntigen Type:SymImmunogen:BMFSpecificity:HumEpitope:N-ToReactivity:HumPurification:AffirPresentation:PBSRecommended Storage:May	ycoerythrin (PE) IP7 / BMP-7 antibody was raised against Human nthetic peptide
OP-Family / Subfamily:TGFHostBMFClonality:PolyIsotype:IgGConjugations:PhyImmunogen Species:BMFAntigen Type:SymImmunogen:BMFSpecificity:HumEpitope:N-ToReactivity:HumPurification:AffirPresentation:PBSRecommended Storage:May	P-1 Antibody, OP1 Antibody, Osteogenic protein 1 Antibody, BMP-7 Antibody F beta / not assigned-TGF beta IP7 antibody was produced in Rabbit lyclonal Corrythrin (PE) IP7 / BMP-7 antibody was raised against Human Inthetic peptide IP7 / BMP-7 antibody was raised against kLH-conjugated synthetic peptide from N-terminal region of human Bmp7.
HostBMFClonality:PolyIsotype:IgGConjugations:PhyImmunogen Species:BMFAntigen Type:SymImmunogen:BMFSpecificity:HumEpitope:N-ToReactivity:HumPurification:AffirPresentation:PBSRecommended Storage:May	IP7 antibody was produced in Rabbit lyclonal g ycoerythrin (PE) IP7 / BMP-7 antibody was raised against Human Inthetic peptide IP7 / BMP-7 antibody was raised against kLH-conjugated synthetic peptide from N-terminal region of human Bmp7.
Clonality:PolyIsotype:IgGConjugations:PhyImmunogen Species:BMFAntigen Type:SymImmunogen:BMFSpecificity:HumEpitope:N-ToReactivity:HumPurification:AffirPresentation:PBSRecommended Storage:May	ycoerythrin (PE) IP7 / BMP-7 antibody was raised against Human nthetic peptide IP7 / BMP-7 antibody was raised against kLH-conjugated synthetic peptide from N-terminal region of human Bmp7.
Isotype:IgGConjugations:PhyImmunogen Species:BMFAntigen Type:SymileImmunogen:BMFSpecificity:HumEpitope:N-ToReactivity:HumPurification:AffirPresentation:PBSRecommended Storage:May	ycoerythrin (PE) IP7 / BMP-7 antibody was raised against Human hthetic peptide IP7 / BMP-7 antibody was raised against kLH-conjugated synthetic peptide from N-terminal region of human Bmp7.
Conjugations:PhyImmunogen Species:BMFAntigen Type:SymileAntigen Type:SymileImmunogen:BMFSpecificity:HumEpitope:N-ToReactivity:HumPurification:AffirPresentation:PBSRecommended Storage:May	ycoerythrin (PE) IP7 / BMP-7 antibody was raised against Human nthetic peptide IP7 / BMP-7 antibody was raised against kLH-conjugated synthetic peptide from N-terminal region of human Bmp7.
Immunogen Species:BMFAntigen Type:SymImmunogen:BMFSpecificity:HumSpecificity:HumEpitope:N-ToReactivity:HumPurification:AffirPresentation:PBSRecommended Storage:May	IP7 / BMP-7 antibody was raised against Human hthetic peptide IP7 / BMP-7 antibody was raised against kLH-conjugated synthetic peptide from N-terminal region of human Bmp7.
Antigen Type:SymImmunogen:BMF the ISpecificity:HumEpitope:N-To Reactivity:Reactivity:HumPurification:Affir PBSRecommended Storage:May	nthetic peptide IP7 / BMP-7 antibody was raised against kLH-conjugated synthetic peptide from N-terminal region of human Bmp7.
Immunogen:BMF the ISpecificity:HumEpitope:N-ToReactivity:HumPurification:AffirPresentation:PBSRecommended Storage:May	IP7 / BMP-7 antibody was raised against kLH-conjugated synthetic peptide from N-terminal region of human Bmp7.
the l     Specificity:   Hum     Epitope:   N-To     Reactivity:   Hum     Purification:   Affir     Presentation:   PBS     Recommended Storage:   May	N-terminal region of human Bmp7.
Epitope:   N-To     Reactivity:   Hum     Purification:   Affir     Presentation:   PBS     Recommended Storage:   May	man BMP7 / BMP-7
Reactivity:   Hum     Purification:   Affir     Presentation:   PBS     Recommended Storage:   May	
Purification:   Affir     Presentation:   PBS     Recommended Storage:   May	Ferminus
Presentation: PBS   Recommended Storage: May	man
Recommended Storage: May	nity purified
Recommended Storage: May	S, pH 7.2, 0.09% sodium azide.
thav	y be stored at 4°C for short-term only. Aliquot to avoid repeated freezing and wing. Store at -20°C. Aliquots are stable for at least 6 months.
Usage Summary: The conj	e applications listed above are for the unconjugated form of this antibody. The njugated antibody has not been tested.
	C, ICC, Western blot, ELISA (Optimal dilution to be determined by the earcher)
<b>Size</b> : 200	) µl
