

HADHA Rabbit anti-Human Polyclonal (C-Terminus) (FITC) Antibody - LS-C277811 - LSBio

CatalogID:	LS-C277811
Target:	hydroxyacyl-CoA dehydrogenase/3-ketoacyl-CoA thiolase/enoyl-CoA hydratase (trifunctional protein), alpha subunit (HADHA)
Synonyms:	HADHA Antibody, 3-oxoacyl-CoA thiolase Antibody, 78 kDa gastrin-binding protein Antibody, ECHA Antibody, LCEH Antibody, LCHAD Antibody, GBP Antibody, MTPA Antibody, TP-ALPHA Antibody, Gastrin-binding protein Antibody
Host	HADHA antibody was produced in Rabbit
Clonality:	Polyclonal
Isotype:	IgG
Conjugations:	Fluorescein (FITC)
Immunogen Species:	HADHA antibody was raised against Human
Antigen Type:	Synthetic peptide
Immunogen:	HADHA antibody was raised against kLH-conjugated synthetic peptide from the C-terminus of human HADHA.
Specificity:	Human HADHA
Epitope:	C-Terminus
Reactivity:	Human, Mouse
Purification:	Affinity purified
Presentation:	PBS, pH 7.2, 0.09% sodium azide.
Recommended Storage:	May be stored at 4°C for short-term only. Aliquot to avoid repeated freezing and thawing. Store at -20°C. Aliquots are stable for at least 6 months.
Usage Summary:	The applications listed above are for the unconjugated form of this antibody. The conjugated antibody has not been tested.
Uses:	Western blot, ELISA (Optimal dilution to be determined by the researcher)
Size:	200 µl
Requested From:	Japan

Laboratory Reagent For In Vitro Research Use Only
