

CatalogID: Farget:	LS-C5636
Target:	
	CD86 molecule
Synonyms:	CD86 Antibody, Activation B7-2 antigen Antibody, B7-2 Antibody, B7.2 Antibody, B70 Antibody, CD86 molecule Antibody, CTLA-4 counter-receptor B7.2 Antibody, CD86 antigen Antibody, FUN-1 Antibody, LAB72 Antibody, BU63 Antibody, CD28LG2 Antibody, Ctla-4 counter-receptors b7.2 Antibody
Host	CD86 antibody was produced in Rat
Clonality:	Monoclonal
sotype:	lgG2b,k
Conjugations:	Fluorescein (FITC)
mmunogen Species:	CD86 antibody was raised against Mouse
Specificity:	Recognizes mouse CD86.
Reactivity:	Mouse
Purification:	Purified
Presentation:	PBS, sodium azide.
Recommended Storage:	Long term: Add glycerol (40-50%) -20°C; Short term: +4°C
Jsage Summary:	Identification and enumeration of CD86+ cells by flow cytometry. Identification of CD86+ cells in frozen sections. Immunoprecipitation. In vivo and in vitro blocking assays. Flow Cytometry: < 1 ug/1E6 cells.
Jses:	IHC - Frozen, Immunoprecipitation, Flow Cytometry (Optimal dilution to be determined by the researcher)
Size:	500 µg
Requested From:	Japan
Lal	boratory Reagent For In Vitro Research Use Only
Not for resale	without prior written consent from LifeSpan BioSciences, Inc.
