

Sheep IgG Rabbit anti-Sheep Polyclonal (Fab'2) (PE) Antibody - LS-C61547 - LSBio

CatalogID:	LS-C61547
Target:	Sheep IgG
Host	Sheep IgG antibody was produced in Rabbit
Clonality:	Polyclonal
Isotype:	IgG
Conjugations:	Phycoerythrin (PE)
Modifications:	Fab'2
Immunogen Species:	Sheep IgG antibody was raised against Sheep
Antigen Type:	Purified protein
Immunogen:	Sheep IgG antibody was raised against sheep IgG whole molecule.
Specificity:	anti-Phycoerythrin, anti-Rabbit Serum, Sheep IgG and Sheep Serum. No reaction was observed against anti-Pepsin or anti-Rabbit IgG F(c)
Reactivity:	Sheep
Purification:	Immunoaffinity purified
Reconstitution:	1 ml sterile ddH2O
Presentation:	Lyophilized from PBS, pH 7.2, 10 mg/ml BSA (IgG, protease free), 0.01% sodium azide.
Recommended Storage:	Lyophilized powder may be stored at -C. Stable for 12 months at 4C. Aliquot and store liquid at 4°C. DO NOT FREEZE! Reconstituted product is stable for 12 months as an undiluted liquid. Sensitive to light.
Usage Summary:	Suitable for immunomicroscopy and flow cytometry or FACS analysis as well as other antibody based fluorescent assays requiring extremely low background levels, absence of F(c) mediated binding, lot-to-lot consistency, high titer and specificity.
Uses:	Immunofluorescence (1:100 - 1:250), Flow Cytometry (1:100 - 1:250) (Optimal dilution to be determined by the researcher)
Size:	500 µg
Concentration:	0.5 mg/ml (after resuspension)
Requested From:	Japan
