

Rat IgG2c Mouse anti-Rat Monoclonal (FITC) Antibody - LS-C70306 - LSBio	
CatalogID:	LS-C70306
Target:	Rat IgG2c
Host	Rat IgG2c antibody was produced in Mouse
Clonality:	Monoclonal
Isotype:	IgG2a
Conjugations:	Fluorescein (FITC)
Immunogen Species:	Rat IgG2c antibody was raised against Rat
Antigen Type:	Purified protein
Immunogen:	Rat IgG2c antibody was raised against igG2c (Rat strain LOU/c).
Specificity:	Rat gamma 2c heavy chain (determined by immunodot). The specificity of monoclonal antibodies against IgG subclasses is determined in a range of optimal concentrations. Increasing the concentration of the first or second antibody can induce cross-reactions with other subclasses.
Reactivity:	Rat
Purification:	Affinity purified
Presentation:	PBS, pH 7.2, 0.1% sodium azide.
Usage Summary:	Flow Cytometry: 5 ug/ml.
Uses:	Flow Cytometry (5 µg/ml) (Optimal dilution to be determined by the researcher)
Size:	500 µg
Requested From:	Japan
