

BrdU Sheep Polyclonal Antibody - LS-C77253 - LSBio

CatalogID:	LS-C77253
Target:	Bromodeoxyuridine (BrdU)
Host	Bromodeoxyuridine (BrdU) antibody was produced in Sheep
Clonality:	Polyclonal
Isotype:	IgG
Antigen Type:	Hapten
Immunogen:	BrdU antibody was raised against bromodeoxyuridine coupled to HGG.
Specificity:	Recognizes bromodeoxyuridine at ~307kD. Species cross-reactivity: all species.
Purification:	Protein G purified
Presentation:	PBS, pH 7.6, 40% glycerol. No preservative added.
Usage Summary:	Suitable for use in ELISA, Western Blot, Immunofluorescence, Immunohistochemistry, Immunoprecipitation and Fluorescent In Situ Hybridization (FISH) Assay. Western Blot: Band is observed at ~307kD. Immunohistochemistry: Frozen and paraffin sections. Enzymatic antigen retrieval and DNA acid denaturation required. Fluorescent In Situ Hybridization: 1:25; Use a rabbit anti-sheep AMCA secondary antibody. Note: Denature DNA sample first so base is accessible to BrdU antibody.
Uses:	IHC - Paraffin (1:25), IHC - Frozen, Immunofluorescence, Western blot, Immunoprecipitation, ELISA (Optimal dilution to be determined by the researcher)
Size:	50 µg
Requested From:	Japan
