NBP2-29361

Streptavidin Protein [PerCP/Cy5.5]

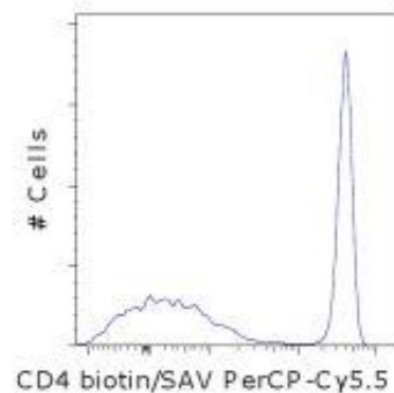

Product Information	
Unit Size	0.1 mg
Concentration	0.2 mg/ml
Storage	Store at 4C in the dark.
Conjugate	PerCP/Cy5.5
Buffer	aqueous buffer, may contain carrier protein/stabilizer.

Product Application Details

Applications	Flow Cytometry
Recommended Dilutions	Flow Cytometry
Application Notes	Streptavidin-PerCP-Cyanine5.5 has been tested by flow cytometric analysis to detect biotinylated primary antibodies. This can be used at less than or equal to 0.25 ug per test. A test is defined as the amount (ug) of antibody that will stain a cell sample in a final volume of 100 uL. Cell number should be determined empirically but can range from 10 ⁵ to 10 ⁸ cells/test. It is recommended that the antibody be carefully titrated for optimal performance in the assay of interest.
