Product Name: 2-Methoxyestradiol

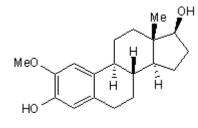

Catalog No.: 1807

Batch No.: 1

CAS Number:362-07-2IUPAC Name: (17β) -2-Methoxyestra-1,3,5(10)-triene-3,17-diol

1. PHYSICAL AND CHEMICAL PROPERTIES

Batch Molecular Formula: Batch Molecular Weight: Physical Appearance: Solubility: Storage: Batch Molecular Structure: C₁₉H₂₆O₃ 302.41 White crystalline solid DMSO to 50 mM Store at RT

2. ANALYTICAL DATA

TLC: Melting Point: HPLC: ¹H NMR: Microanalysis: R_f = 0.83 (Dichloromethane:Methanol [10:1]) At 194°C Shows 100% purity Consistent with structure Carbon Hydrogen Nitrogen

Theoretical 75.46 8.67 Found 75.12 8.9

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use

Product Information

Print Date: Apr 28th 2015

Product Name: 2-Methoxyestradiol

 CAS Number:
 362-07-2

 IUPAC Name:
 (17β)-2-Methoxyestra-1,3,5(10)-triene-3,17-diol

Description:

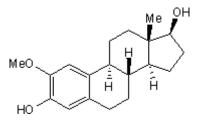

Apoptotic, antiproliferative and antiangiogenic agent, in vitro and in vivo; acts via an estrogen receptor-independent mechanism. Induces p53-induced apoptosis via two pathways: activation of p38 and NF- κ B; and activation of JNK and AP-1 leading to Bcl-2 phosphorylation. Also upregulates death receptor 5 and binds to tubulin, inhibiting its assembly.

Physical and Chemical Properties:

Batch Molecular Formula: C₁₉H₂₆O₃ Batch Molecular Weight: 302.41 Physical Appearance: White crystalline solid

Minimum Purity: >99%

Batch Molecular Structure:

Storage: Store at RT

Solubility & Usage Info: DMSO to 50 mM

Stability and Solubility Advice:

Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).

Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. Our standard recommendations are:

SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.

SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.
