

## Affinity Purified Rabbit Anti-goat IgG (H&L) Antibody Catalog Number: R-401-C-ABS

Lot Number: WEQ0415091

## **Product Specifications**

Amount Form	<ul> <li>◆ 500 μg</li> <li>◆ Lyophilized</li> </ul>
TOTIL	♦ Lyophilized
Purity	Affinity purified
Buffer	◆ 10 mM sodium phosphate, 0.85% (w/v) sodium chloride, pH 7.2 (PBS) with 5% trehalose
Preservative	<ul> <li>♦ 0.05% (w/v) sodium azide</li> </ul>
Reconstitution	<ul> <li>Reconstitute with sterile PBS. If 0.5 mL of PBS is used, the antibody concentration will be 1 mg/mL.</li> </ul>
Storage	♦ 2° - 8° C
Specificity	<ul> <li>This antibody reacts with heavy chains on goat IgG, and with light chains on all goat immunoglobulins. No reactivity is observed to non-immunoglobulin goat serum proteins, human, mouse, or rat IgG by IEP.</li> </ul>
Note	<ul> <li>Sodium azide may react with lead and copper plumbing to form explosive metal azides.</li> <li>Flush with large amounts of water during disposal.</li> </ul>
