|-----------------------|--|
| Host Species          | Rabbit   |
| Clonality             | Polyclonal   |
| Purification          | Antibodies were produced by immunizing rabbits with synthetic phosphopeptide and KLH conjugates.       |
|                       | Antibodies were purified by affinity-chromatography using epitope-specific phosphopeptide. Non-phospho |
|                       | specific antibodies were removed by chromatogramphy using non-phosphopeptide.                          |
