Western blot analysis of extracts from HUVEC cells untreated or treated with EGF using EGFR(Phospho-Thr693) Antibody #11187.

Western blot analysis of extracts from HUVEC cells, treated with starve or calf intestinal phosphatase (CIP), using EGFR (Phospho-Thr693) Antibody #11187.

Background

Receptor for EGF, but also for other members of the EGF family, as TGF- α , amphiregulin, betacellulin, heparin-binding EGF-like growth factor, GP30 and vaccinia virus growth factor. Is involved in the control of cell growth and differentiation. Phosphorylates MUC1 in breast cancer cells and increases the interaction of MUC1 with SRC and CTNNB1/beta-catenin.
