

## MEK5 Antibody

Catalog No: #21559

Package Size: #21559-1 50ul #21559-2 100ul #21559-4 25ul

Orders: [order@signalwayantibody.com](mailto:order@signalwayantibody.com)Support: [tech@signalwayantibody.com](mailto:tech@signalwayantibody.com)

## Description

Product Name	MEK5 Antibody
Host Species	Rabbit
Clonality	Polyclonal
Purification	Antibodies were produced by immunizing rabbits with synthetic peptide and KLH conjugates. Antibodies were purified by affinity-chromatography using epitope-specific peptide
Applications	WB
Species Reactivity	Hu Ms Rt
Specificity	The antibody detects endogenous level of total MEK5 protein.
Immunogen Type	Peptide-KLH
Immunogen Description	Peptide sequence around aa. 311-315(K-T-Y-V-G ) derived from Rat MEK5.
Target Name	MEK5
Other Names	MAP kinase kinase 5; Map2k5; MAPKK 5; MAPK/ERK kinase 5;
Accession No.	Swiss-Prot: Q62862NCBI Protein: NP_001029159.1
Concentration	1.0mg/ml
Formulation	Supplied at 1.0mg/mL in phosphate buffered saline (without Mg <sup>2+</sup> and Ca <sup>2+</sup> ), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.
Storage	Store at -20°C for long term preservation (recommended). Store at 4°C for short term use.

## Application Details

Predicted MW: 49kd

Western blotting: 1:500

## Images

Western blot analysis of extract from rat brain and mouse brain tissue using MEK5 Antibody #21559

## Background

A family of protein kinases located upstream of the MAP kinases and responsible for their activation has been identified. The prototype member of this

family, designated MAP kinase kinase, or MEK-1, specifically phosphorylates the MAP kinase regulatory threonine and tyrosine residues present in the Thr-Glu-Tyr motif of ERK. A second MEK family member, MEK-2, resembles MEK-1 in its substrate specificity. MEK-3 (or MKK-3) functions to activate p38 MAP kinase, and MEK-4 (also called SEK1 or MKK-4) activates both p38 and JNK MAP kinases. MEK-5 appears to specifically phosphorylate ERK5, whereas MEK-6 phosphorylates p38 and p38b. MEK-7 (or MKK-7) phosphorylates and activates the JNK signal transduction pathway.
