

Anti human FXR mouse monoclonal antibody

FXR: Farnesoid X Receptor

Code No	PP-A9033A-00
Clone No.	A9033A
Lot.	A-2
Concentration	1 mg/mL
Volume	100 uL
Ig Class	G2a
Description	Farnesoid X-activated receptor (FXR, HRR-1, BAR, RIP14; NR1H4) is a member of orphan nuclear receptor. FXR is expressed in liver, intestinal villi, renal

tubes and adrenal cortex. FXR is a global regulator of

genes of FXR. FXR was shown to be transcriptionally activated by falnesol metabolites such as farnesol itself, juvenile hormone III. FXR binds to DNA only as a

bile acid metabolism. Two genes, cholesterol 7ahydroxylase (CYP7A1) and IBABP (ileal bile acid binding protein), which are implicated in bile acid biosynthesis and recycling, respectively, are target

Nomenclature	NR1H4
Genbank	U68233
Origin	Produced in BALB/c mouse ascites after inoculation with hybridoma of mouse myeloma cells (NS-1) and spleen cells derived from a BALB/c mouse immunized with Baculovirus-expressed recombinant human FXR (2-126 aa) .
Specificity	This antibody specifically recognizes human FXR and cross reacts with mouse and rat FXR.

heterodimer with RXR.

Not for Diagnostic or Therapeutic use. Purchase of this product does not include or carry any right to resell or transfer this product either as a stand-alone product or as a component of another product. Any use of this product other than the permitted use without the express written consent of Perseus Proteomics Inc. is prohibited.

Application / Recommended Concentration

In order to obtain the best results, optimal working dilutions should be determined by each individual user.

Western Blot	1 ug/mL
Non reducing Western Blot	Not yet tested
ELISA	0.2 ug/mL
Immunoprecipitation	Decide by use
Supershift Assay	Not yet tested
Chromatin immunoprecipitation	Not yet tested

Immunohistochemistry 20-40 ug/mL

Rat Liver Hepatocyte frozen section

Rat Small intestine Epithelial cell paraffin section

Storage

Store at 2 - 8 °C up to one month. For long-term storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is not recommended. Storage in a frost-free freezer is not recommended.
