

## Anti human TR4 mouse monoclonal antibody

TR4: Tasticular receptor 4

Genbank

Specificity

Purification

Formulation

Origin

L27586

Code No	PP-H0107B-00	
Clone No.	H0107B	
Lot.	A-2	
Concentration	1 mg/mL	
Volume	100 uL	
lg Class	G2a	
Description	TR4(TAK1, NR2C2) is a member of orphan nuclear receptor. TR4 was originally cloned from lymphoblastoma Raji cells or mouse brain cDNA library. No ligand has been reported. Northern blot shows TR4 is transcribed as a 9kb mRNA in many tissues and as a 2.8kb mRNA in testis, mainly in spermatocytes. TR4 has two isoforms called TR4alpha1 and TR4 alpha2,which differ in 19 amino acids coded by two separate exons. Both products translated from 9kb transcript are ubiquitously expressed. Since TR4 binds to the same elements for the RAR-RXR or TR-RXR heterodimers, TR4 may has a inhibitory effect for retinoic-acid mediated transactivation.	
Nomenclature NR2C2		

Produced in BALB/c mouse ascites after inoculation

with hybridoma of mouse myeloma cells (NS-1) and

immunized with Baculovirus-expressed recombinant

This antibody specifically recognizes human TR4 and

spleen cells derived from a BALB/c mouse

cross reacts with mouse and rat TR4.

Ammonium sulfate fractionation

Physiological saline with 0.1% NaN3 as a

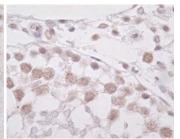

## Application / Recommended Concentration

In order to obtain the best results, optimal working dilutions should be determined by each individual user.

Western Blot	2 ug/mL
Non reducing Western Blot	Not yet tested
ELISA	0.1 ug/mL (A450=0.2)
Immunoprecipitation	Decide by use
Supershift Assay	Not yet tested
Chromatin immunoprecipitatic	Not yet tested

10µg/mL

Immunohistochemistry

Rat cerebellum Purkinje cells and granular cells

Rat testis primary and secondary spermatocytes

Storage Store at 2 - 8 °C up to one month. For long-term storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is not recommended. Storage in a frost-free freezer is not recommended.

Reference

Notes Sodium azide may react with lead and copper plumbing to form explosive metal azides. Flush with large amounts of water during disposal.
